In mid-April, Army Secretary Pete Geren shocked military traditionalists by floating the idea of allowing soldiers to volunteer for treatment without commander knowledge or fear of retribution.

Some patients may be advised to undergo a diagnostic and possible therapeutic injection of the hip joint. Each two-week training, all participants had their brains scanned in an fMRI machine while they looked.

I’m also gonna get some folic acid for hubby cuz I actually heard that low folic intake in a male can cause DNA defects in a male’s sperm.

As in city planning, the way you lay your vegetable garden out is crucial.
